DIAPHRAGM PUMP

SEAFLO diaphragm pump is 12 / 24v DC pressure pump, and some models have 115 and 230V AC. The internal diaphragm agitates back and forth to change the chambers' volume to suck and discharge liquid, and the pump can be self-priming. It can pump fresh water, waste water, and sea water, but agricultural corrosive liquid, please inform us separately. The pumped liquid should be below 60°C, and the pump can run dry. This product's diaphragm is made of high quality Santoprene, and the valve is made of the high quality EPDM, greatly improving the product life and scope of application.

SEAFLO diaphragm pump runs water smoothly and quietly, giving users a quiet experience environment. Some products provide both thermal protection and back flow protection, not only to providing more protection for the pump but also reducing maintenance and repair costs effectively. Each pump pressure has an adjustable range, so users can not be adjusted optionally, and if necessary, please inform us in advance.

SEAFLO pumps should not pump petrol, petroleum products or any other liquid with ignition point below 100°F (38°C). At the same time, the pumps should be stalled in dry and ventilated places, or some places near water.

O-Ring Pump Head Standard Accessories:

DIAPHRAGM PUMP 21 SERIES

Features & Benefits

- Compact design
- Heavy-duty demand switch
- Can run dry
- Quiet operation
- Industry standard mount pattern

Typical Applications

- General Industrial
- Beverage/Food Service
- Water Treatment/RO
- Distillation Equipment
- Automotive
- Agricultural Spraying

PUMP

- Type**
2 Chamber positive displacement diaphragm pump, self priming, capable of being run dry
- Control Type**
Pressure switch
- Priming Capability**
4 feet (1.2 m) suction lift
- Re-start Pressure**
Shut-off Pressure 35 PSI: 25 PSI $\pm$ 5 PSI ($\pm$ 0.3 bar)
Shut-off Pressure 40 PSI: 30 PSI $\pm$ 5 PSI ($\pm$ 0.3 bar)
Shut-off Pressure 70 PSI: 56 PSI $\pm$ 5 PSI ($\pm$ 0.3 bar)
- Max Recommended Temperature**
60° C (140° F)

Inlet/Outlet Ports

- 3/8" hose barb
- Weight**
1.25 lbs (0.57 kg)

MOTOR

- Duty Cycle**
Intermittent
- Voltage**
12V/24V
- Leads**
18 AWG, 13.8" Lead

Typical Applications

General Industrial
Agricultural Spraying
Automotive
Marine/RV

PUMP

Type
5 Chamber positive displacement diaphragm pump, self priming, capable of being run dry
Control Type
Pressure switch
Priming Capability
6 feet (1.8 m) suction lift
Re-start Pressure
Shut-off Pressure 60 PSI : 48 PSI $\pm$ 5 PSI ($\pm$ 0.3 bar)
Max Recommended Temperature
60° C (140° F)

Inlet/Outlet Ports

1/2" -14 MNPT
Weight
6.1 lbs (2.8 kg)

MOTOR

Duty Cycle
Continuous
Voltage
12V/24V
Leads
16 AWG, 9" with 2-Pin connector

PUMP PERFORMANCE

STANDARD PUMP CONFIGURATIONS

Model	Voltage	Open Flow (GPM/LPM)	Control Type	Max Amps	Shut-off Pressure (PSI/BAR)	Valves	Diaphragm	Ports

DIAPHRAGM PUMP 52 SERIES

Features & Benefits

Positive displacement pump
Can run dry
Up to 5.0 GPM
Quiet operation
Demand Pump
Easy connect fittings
Industry standard mount pattern

Typical Applications

General Industrial
Water Treatment/RO
Agricultural Spraying
Automotive
Alternative Energy/Solar
Marine and RV

PRESSURIZED ACCUMULATOR TANK 0.75 L / 1L

Accumulator tanks hold a reservoir of air and water down stream from the pump. The air acts as a cushion, absorbing pump and pressure fluctuations, smoothing the flow and making the system quieter. Accumulators allow the pump to reach shut-off pressure more smoothly which reduces the on/off cycle which gives better control of hot water delivery.

FEATURES & BENEFITS

Smoother flow, quieter water systems.
Internal rubber membrane eliminates maintenance and allows universal mounting.
Better control of hot water temperatures.
Simply fitted to new or existing systems.
Longer pump life, lower battery drain.
Snap-in port fittings.

DIAPHRAGM BOOSTER PUMP SERIES

Application

FLOW DIAGRAM:

PRODUCT FEATURES

- Compliant with ROSH & CE certification. Long time water pressure above 1.2MPa, water hammer performance more than 100 thousand times, continuous rated running above 2000h.
- All parts that are in contact with water shall be made of food grade materials and conform to the NSF human body drinking water safety standards.
- Compact size, space saving, fixed foot size general.
- High strength plastic and metal pressure components
- Equipped with strong impetus DC motor with low noise, low vibration.
- The fluctuation of outlet water pressure will be <30 psi when the inlet pressure during 30 to 115 psi and the maximum bypass pressure will remain < 145 psi.

APPLICATION

- Suitable for the pressure of the town area.
- For reverse osmosis pure water machine, spray device, water treatment equipment, foundry measurement and health, environmental protection, printing and other industries in the use of.

PRODUCT PARAMETERS

DEEP WELL SOLAR SUBMERSIBLE PUMP

Features & Benefits

- Designed to be used with solar panels or a 24v battery system
- Easy hook up to most any existing solar panels or wind generator systems
- For 4" wells or larger
- Runs dry without damage
- Water blocked cable connector
- Accepts a variety of jacketed cables
- 16 AWG, 2 meters (6.7 feet) long leads

PUMP

Inlet / Outlet

Intake: 50 mesh stainless steel filter

Outlet: 1/2" (12.7mm) barb

Weight:

7.6 lbs (3.45 kg)

Type

DC permanent magnet motor; with thermal protection

STANDARD PUMP CONFIGURATIONS

Model	Voltage	Max Draw(A)	Fuse	Max Diving depth	Max Lift	Inlet / outlet	Open flow
SFDP2-G103-01	24 V	6.0 A	8.0A	100 feet (30 m)	230 feet (70 m)	50 mesh stainless steel filter / 1/2" (12.7mm) barb	65 LPM±5%

GEAR PUMPS

Features & Benefits

- Perfect for pumping oil
- Metal pump head
- Metal gears
- Sealed Motor Design
- Thermally Protected Motor
- Self-priming
- Stainless Steel Shaft

Typical Applications

- Extreme duty
- Transmission fluid transfer
- Lubricant and viscous liquid transfer
- Industrial use
- Oil change pump

PUMP

Liquid Temperature

140°F (60°C) Max.

Priming Capabilities

Not needed flooded suction

Power

10 amps max current draw

Max Pressure

Not needed

Inlet/Outlet Ports

3/8" FNPT (9.52 mm) thread fitting

Weight

5.46 lbs (2.48 kg)

MOTOR

Type

High quality seamless design that is thermally protected

Leads

Wireleads

Temperature Limits

140°F (60°C) Max.

Duty Cycle

Intermittent

Voltage

12v/24v

SUBMERSIBLE PUMP

SEAFLO submersible pump is 12 / 24v DC centrifugal pump. It can pump fresh water, waste water, and sea water, but agricultural corrosive liquid, please inform us separately. The pumped liquid should be below 43°C. Please check the correct wiring before start the pump to avoid reverse that will impact the head of outlet. Please also make sure the impeller should be full under liquid, and do not run dry, or it will shorten the motor life.

SEAFLO submersible pump has following benefits: high quality sealing and moisture transfer; air lock protection; compact design; high efficiency; long life; snap-lock filter base for easy installation; stainless steel shaft; completely submersible; corrosion protection; low noise; ignition protected.

Automatic submersible pump combines a submersible pump with a float switch; which can turn the pump on when the liquid reach a certain water level and turn off when liquid below certain water level. Automatic submersible pump has 3 leads that can be use as an automatic pump and a non-automatic pump, please check the manual for more details.

DC SUBMERSIBLE PUMP 01 SERIES 350/500/750/1100 GPH

FEATURES

- CE, RoHS, ISO 8846, ISO 8849 standards
- Traditional operation by switch or float switch
- Entirely Submersible
- Run dry capable for workloads
- Quiet operation
- Stainless steel shaft

- Snap-off strainer base for easy maintenance
- Pump and switch are stand alone products
- Sealed efficient, long life motors
- Anti-Airlock protection
- Exclusive moisture tight seals
- Marine grade blocked wiring

AUTOMATIC DC SUBMERSIBLE PUMP 11 SERIES 600/750/1100 GPH

FEATURES & BENEFITS

- Our revolutionary, patented design
- Allows for effortless installation and service
- With the ability to quick disconnect the power line and the strainer base in seconds,
- Proper pump care has never been easier
- Available in 600, 750, and 1100 GPH
- 18 AWG, 1 m long leads

MOTOR

- Type**
Sealed, efficient, long life motor
- Temperature Limits**
110°F (43°C) Max.
- Duty Cycle**
Intermittent

600 GPH-750 GPH

1100 GPH

AUTOMATIC DC SUBMERSIBLE PUMP 06 SERIES 600/750/1100 GPH

FEATURES & BENEFITS

- All-in-one pump & switch-No float switch required
- Pump turns on when water level rises & shuts off when water is removed
- Will not pump oil-straight motor oil that enters the bilge will not turn the pump on
- Snap-off strainer for easy cleaning
- Anti-fouling impeller
- 18 AWG, 1 m long Leads

MOTOR

- Type**
Sealed, efficient, long life motor
- Temperature Limits**
110°F (43°C) Max.
- Duty Cycle**
Intermittent

SHOWER SUMP PUMP SYSTEM 07 SERIES 600/750 GPH

FEATURES & BENEFITS

- Removable mesh filter allows easy cleaning
- Clear screw-down cover
- Check valve on outlet
- Ignition protected
- Handles waste water from more than one tapping point
- Easy installation
- Multiple inlet ports for versatile usage
- 18 AWG, 1 m long Leads

MOTOR

- Type**
Sealed, efficient, long life motor
- Duty Cycle**
Intermittent

SUBMERSIBLE AND LINE PUMPS 280/500 GPH

Features & Benefits

- Able to pump 40°C diesel, 80°C sea water
- Able to run about 20 minutes
- Portable to carry on
- Easy installation
- Intermittent duty
- "A" refers to 5m leads with clip, "B" refers to 1m leads

INTELLIGENT SPRAYERS

SEAFLO brand sprayer is intelligent and efficient with one-click start function, saying goodbye the manual. The translucent tank made of a solid HDPE material ensures longer life and easy visibility of the liquid in the tank; and rugged design makes uniform thickness and impact resistance. Automatic high-pressure water pump makes spraying longer distance and spraying uniform. Our product quality is reliable, and it is exported to markets such as Europe, America, Australia, Canada and Southeast Asia. It is your good helper in garden irrigation.

12LITER 12VOLT KNAPSACK SPRAYERS

SEAFLO 12L 12V knapsack sprayer equipped with replaceable battery, fillable wide neck, ruggedly closed spray gun, adjustable nozzle, built-in pressure filter, and brass lance. It is the first choice for spraying and landscape maintenance, especially designed for daily using. It is a handy and easy alternative sprayer.

12 VOLT ATV SPRAYERS

50, 100 LITER-12 VOLT SPRAYERS

Number	Feature	Benefit
1	Water pump	With reliable SEAFLO diaphragm pump, valve & santoprene diaphragm
2	Translucent tank	Easy to see liquid level in the tank
	Rugged design	Blow molding tank has uniform thickness and can take high impact force
	Rugged HDPE Material	Durable HDPE stabilized poly tank for long life
3	Large carry handles	Easy handling and for storing hose neatly
4	Lance clips beside	Ensures neat storage and avoids lance dragging on the ground
5	Large filling lid	Helps prevent spillage when filling
6	2-stage filtration	large suction filter; pressure filter in lance handle
7	Heavy-duty power cable	2.5 meter electric cable with battery clip, heavy-duty 12 volt quick-plug power cable with rocker-switch for easy hook-up to your battery
8	Quick-clip power connection	High quality electrical connector to the pump with waterproof plug for quick hook up and reliability
9	Metal lance with adjustable nozzle	Equipped with high strength handle switch, 70MM stainless steel sprayer lance, adjustable copper nozzle
10	Large drain	Easy-to-use, large 'boat plug' drain for quick clean-out
11	6 meter hose	6 meters of high quality 20 bar rated spray hose fitted. Internal Diameter: 10MM. External Diameter: 14MM

Description

The SEAFLO 12 Volt Sprayers covers from 50L to 100L capacity HDPE stabalised polyethylene tank and are supplied as a self contained complete unit. These new SEAFLO 12V sprayers deliver constant flow, no pulsation and the highest pressure for distance spraying.

Main Application

It is the ideal tool for general maintenance such as weeding, on-site spraying, fence cleaning, and path cleaning. It is suitable for installation on ATVs, RVs, live news trucks or similar mobile vehicles, The robust HDPE material ensures longer life.

PLASTIC 5,10,20 LITRES AUTO SHUT OFF FUEL CANS

Fuel Container Gasoline, Diesel, Two-stroke engine oil EAP & AS/NZS 2906:2001 Standards

Description

Seaflo 5, 10 & 20 Litre automatic shut off fuel cans which are designed with specially proportioned rear handle for balanced pouring that is self venting for safer & easier pouring. Features reduced emissions to protect the environment and meets EAP & AS/NZS 2906:2001 Standards

Typical Applications

Car, lawnmower, atv or snowblower and other essential equipment topped off with fuel

Features

Complies to EPA & CARB Standards
Spill Proof, Durable Vented Pouring Spout
UV Stabilized High Grade Polyethylene
Certified to Australian Standard AS/NZS 2906:2001

ON/OFF REMOTE CONTROL

SEAFLO 12-volt ON/OFF Remote Control is Ideal for equipment mounted on ATV's, utility vehicles or pickup hitches. Keychain with clip is used to turn off your equipment.

Features & Benefits

Extended Wireless Range up to 50meters
Quick Connect Into SEAFLO products Or Wire Into 12Volt Products Up To 20Amps
Turn your 12-volt sprayer or spreader on or off from operator's seat
Easy to install remote control module connect between battery and pump or motor
Kit includes one receiver box and 1 remote control
Range can be extending further depend in area, device setup and remote control battery strength

3	Pressure	pounds per square inch 1Bar=14.5 PSI=1.02 kg per square cm
4	Temperature	1°F= 32+ °C*1.8
5	Feet and inches	1feet =12 inches =304.8mm 1inch =8 scruple =25.4mm

Each diaphragm booster pump customized
pressure, flow range parameter table

Chamber	Series	Flow range	Customized flow range	Customized pressure range
2 chambers pump	21	1.0-1.4GPM	2.0-4.0LPM	17-80psi
	22		2.0-5.0LPM	17-120psi
3 chambers pump	31	1.5-3.0GPM	2.0-8.0LPM	17-160psi
	33		3.0-11.6LPM	17-60psi
	34		2.0-8.0LPM	17-100psi
	35		3.0-8.0LPM	17-160psi
	36		2.0-8.0LPM	
4 chambers pump	41Short	2.7-4.5GPM	3.0-17.0LPM	17-60psi
	41Long		3.0-17.0LPM	
	42		3.0-11.3LPM	
	43		3.0-11.3LPM	
5 chambers pump	51	3.0-7.0GPM	3.0-20.0LPM	17-70psi
	52		3.0-20.0LPM	
	53		15.0-26.0LPM	

Note: Flow and pressure can be customized but only inside of our factory; Please inform us if you have special needs. The pressure is not suggested to be adjusted by user. under no professional toolings.
